

SokaSoko Subscription Tiers — Reference

Source of truth: backend model as of the latest deploy. Regenerated automatically from `src/Subscription/subscription.model.js`.

Universal defaults

- Grace period on subscription lapse: 5 days (applies to all types).
- All paid subscriptions land as PENDING and require admin activation until a payment gateway is wired.
- Ismaili AI enforcement runs against caps.ai for the caller's tier; Platinum applies fair-use hourly + daily rate limits.
- Downgrade to Standard does not auto-cancel a previously-active paid Subscription row — admin should CANCEL it manually.
- GET `/v1/subscriptions/me` returns tier + usage + per-type status block (refereeStatus / scoutStatus / coachStatus / academyStatus / clubStatus / agentStatus).

PLAYER

Pricing (TSh)

Tier	Monthly	Quarterly	Bi-annual
STANDARD	free	free	free
GOLD	5,000	10,000	20,000
PLATINUM	10,000	25,000	40,000

Feature caps by tier

Feature	STANDARD	GOLD	PLATINUM
AI Ismaili / month	—	100	∞
Reports received / month	1	5	∞
Evaluations received / month	1	10	∞
Evaluation reports shared with player	—	✓	✓
Evaluation requests / month	—	2	∞
Can compete in challenges	—	✓	✓
■ Fair-use per hour	∞	∞	30
■ Fair-use per day	∞	∞	300

Notes

- Standard is free, but useful (Ismaili-free means 0 AI, 1 own report/mo).
- Standard players CAN be evaluated once/month — but the report is withheld to create upgrade pressure.
- Gold gets 100 AI queries + 5 reports + 10 evaluations + 2 eval-requests + challenge participation.
- Platinum unlimited across the board with fair-use rate limits on Ismaili.
- No onboarding trial — Standard is the entry state.

REFEREE

Pricing (TSh)

Tier	Monthly	Quarterly	Bi-annual
MINOR	5,000	10,000	contact
ADULT	10,000	25,000	40,000

Feature caps by tier

Feature	MINOR	ADULT
Match assignment eligible	✓	✓

Notes

- Only gate: match assignment eligibility. Two tiers by age (MINOR / ADULT). Server auto-picks from DOB.
- Referees officiate FREE until they reach 10 completed matches (as head ref OR either assistant slot).
- At match 8, a "2 more before block" notification fires. At match 10, subscription is required for new assignments.
- MINOR has no BIENNIAL plan (only Monthly + Quarterly).
- Grandfather onboarding grace has been removed — we launch with 0 accounts, so there are no existing refs past threshold.

SCOUT

Pricing (TSh)

Tier	Monthly	Quarterly	Bi-annual
PRO	10,000	25,000	40,000

Feature caps by tier

Feature	PRO
Scout assignment eligible	✓
Can evaluate players	✓
Can submit scout reports	✓

Notes

- Single flat PRO tier — no free trial, no age brackets, no fallback.
- Unsubscribed scout is completely locked from official work: cannot be selected, cannot evaluate, cannot file reports.
- A Gold/Platinum COACH also satisfies the "official scouting" gate — coaches double as scouts once they pay.

- Standard is PAID from day 1 (unlike PLAYER/COACH/ACADEMY). Post-trial without subscription = minimal access.
- Feature caps mirror ACADEMY 1:1 for initial launch; CLUB-specific tweaks (transfer market, official league standings) to come.
- Roster composition caps present on the tier but not yet enforced (no CLUB-roster endpoint exists yet).

- Enterprise pricing is negotiated per account — the client card submits a PENDING contact request; admin sets pricing + activates offline.
- Only Enterprise can generate TEAM, MARKET, or CUSTOM analysis reports. Gold is limited to PLAYER reports.
- Adding/removing players from an agent's roster is not tier-gated (existing consent flow stays as-is).

- Product listings + promo slots + home-feed posts scale linearly with tier; Enterprise unlimited.
- Flash sales (limited-time discount posts) — 0 / 1 / 4 / unlimited per month.
- ENTERPRISE unlocks broadcast-to-all-accounts (moderated) and guaranteed Sokasoko house-account slot.
- Enterprise pricing is negotiated per account — subscribe request submits a PENDING contact card; admin sets amount + activates offline.
