Payment Channels

SokaSoko accepts payment via mobile money, banks, cards, and admin-verified manual transfers. Confirmation time varies by channel — see the table below.

Channel	How it works	Confirmation
M-Pesa	Vodacom mobile money — auto-verified via reference number.	Instant
Selcom	Aggregator — cards, banks, Halopesa, Airtel Money, Tigo Pesa.	Instant
AzamPay	Aggregator — cards + mobile money across all networks.	Instant
Manual	Bank transfer, cash deposit, admin activation.	Reviewed by SokaSoko admin, 24–48h
Card	Visa / Mastercard direct — for international users.	Instant (via Selcom / AzamPay)
PayPal	International PayPal — currency conversion to TZS.	Instant, when enabled
Google Pay	Google Pay wallet (Android) — pending Play Console classification.	Deferred

Test-mode note

During closed beta, the backend flag **AUTO_APPROVE_PAYMENTS** is on — every submitted payment activates the subscription immediately without waiting for admin verification. This flag is turned off before public launch so Manual / Card payments flow through the normal review queue.

Bundled account types

SCHOOL is not subscription-eligible. Every school comes with a fixed budget of delegated sports-teacher seats, each running at COACH GOLD tier by default.

GUARDIAN is not subscription-eligible either — a free tier with fixed caps (15 minors, 5 referee minors, no trials, no scheduling, own-minor player reports only).

Prices reflect the current platform configuration. For latest live numbers, see the subscription model in the backend (src/Subscription/subscription.model.js).
